

# NL ENVIROTHON

**April 26-28, 2012**

**Lion Max Simms Memorial Camp,  
Bishop's Falls**

**OPEN TO ALL HIGH SCHOOLS ACROSS THE PROVINCE**

NL Envirothon is a fast-paced, hands-on competition for high school students that tests your knowledge of Newfoundland and Labrador's natural resources and understanding of environmental sustainability. Testing occurs in the following subject areas: Aquatic Ecology, Forestry, Soils and Land Use, Wildlife, and the 2012 Theme "Nonpoint Source Pollution / Low Impact Development".

Teams are made up of 5 students and a teacher/coach.

**The winning team has the chance to represent the province at the Canon Envirothon in Selinsgrove, Pennsylvania, U.S.A., July 22-28, 2012.**

*Model Forest of Newfoundland & Labrador thanks all sponsors of NL Envirothon 2011 and is looking forward to NL Envirothon 2012! We are looking for new teams in 2012!! Come join the fun!*

---

**Newfoundland and Labrador Envirothon** is a fast-paced, competitive, challenging event that promotes teamwork, public speaking and an understanding of Newfoundland & Labrador's natural resources. Teams of five High School students are tested in five theme areas:

- Soils/Land Use
- Forestry
- Aquatic Ecology
- Wildlife
- Special Topic

The special topic changes annually. This year's special topic is: Nonpoint Source Pollution / Low Impact Development.

**On the first day of competition**, students complete a 15 minute field test in each of the topics listed above. They are then given a problem scenario to solve based on the current theme and allowed 4 hours to prepare a solution to the scenario.

**On the second day of competition**, teams present their scenarios to the panel of judges. The team with the most creative and effective solution to the problem, as well as the best presenting skills, wins the oral presentation component. The team with the highest combined score from the field testing and oral presentation components wins the provincial Envirothon and qualifies to compete at the Canon Envirothon to be held in Selinsgrove, Pennsylvania, U.S.A. in 2012.
